

Abhishek Kirole

Pune, Maharashtra | abhishekkirole7@gmail.com | Portfolio | LinkedIn | GitHub

PROFILE SUMMARY

Motivated Computer Science (AI/ML) undergraduate with hands-on experience building full-stack web applications using the MERN stack and Django. Passionate about machine learning and solving real-world problems through technology. Seeking an entry-level software development or ML role to apply and grow technical skills.

EDUCATION

B.E. in Computer Science & Engineering (AI/ML)

2023 – 2027

G.H. Rasoni College of Engineering and Management, Pune | **CGPA: 7.6 / 10**

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL
Web & Frameworks: MERN Stack (MongoDB, Express.js, React.js, Node.js), Django, Bootstrap
Databases: MongoDB, MySQL
Machine Learning: Supervised & Unsupervised Learning, Model Evaluation, Pandas, NumPy
Tools & Technologies: Git, REST APIs

ACADEMIC PROJECTS

Doctor Appointment System | MERN Stack | Deployed

- Built and deployed a full-stack web application allowing patients to search doctors, book appointments, and receive confirmations in real time.
- Implemented JWT-based authentication for patients and doctors, with role-based dashboard views.
- Designed RESTful APIs using Node.js/Express and stored data in MongoDB; deployed the live application on the cloud.

AI Career Path Advisor | React.js, Django, Python | GitHub

- Built an AI-driven platform featuring a career recommender, resume analyzer, resume builder, and NLP chatbot.
- Developed a **Django REST API backend** and integrated a machine learning model for personalized career recommendations.
- Engineered a responsive React.js frontend and implemented resume parsing with actionable feedback and skill gap analysis.

DSA Learning Platform | MERN Stack | Deployed

- Developed an interactive platform for practicing Data Structures & Algorithms with topic-wise problem sets and progress tracking.
- Built the backend API with Node.js/Express and MongoDB; designed an intuitive React.js UI for problem navigation.
- Added user authentication and a personalized dashboard to track solved problems and performance over time.

CERTIFICATIONS

- IBM Backend Development** — IBM / Coursera
- Machine Learning Specialization** — Andrew Ng, DeepLearning.AI / Coursera
- DSA Certification** — Apna College

ACHIEVEMENTS

Maintained strong consistency in Data Structures & Algorithms by solving 300+ problems on **LeetCode**.
